ExpressLine

MULTIPURPOSE COMBI-CORE PLYWOOD

Plywood with a combined poplar and eucalyptus core, offering an excellent balance of lightness, strength and ease of machining for a wide range of interior applications.

The combination of wood species provides a stable and homogeneous core, ideal for interior applications requiring a lightweight panel that is easy to machine and offers good surface quality.

Manufactured using wood sourced from sustainably managed plantations.

Available in the following versions:

- **ExpressLine Poplar:** Panel with poplar faces and a combined core.
- **ExpressLine Primed:** Primed faces, ready for painting and high-quality finishing processes.
- **ExpressLine Laminated:** Decorative laminated surface.

Applications:

Ideal for the manufacture of interior furniture for homes, offices and caravans, including cabinets, modules, fronts and shelving, as well as decorative elements, wall coverings and lightweight panels.
