Laminated

COMBI-CORE LAMINATED PLYWOOD

Laminated plywood for interior applications with performance-oriented balanced construction.

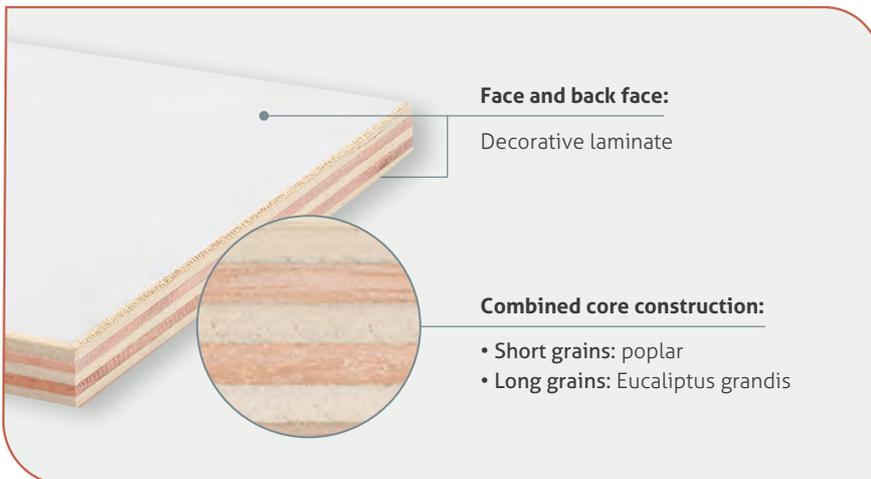

The combined poplar and Eucalyptus grandis core provides an efficient balance of weight, dimensional stability, and mechanical performance, ensuring easy cutting and edge-banding.

Coated with a decorative laminate highly resistant to impact, scratching, and chipping, it offers a durable, uniform surface ready for installation.

Manufactured with wood sourced from sustainably managed plantations.

Applications:

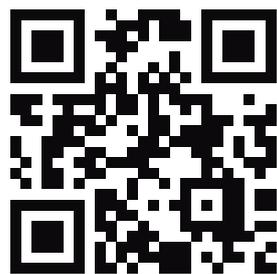

Interior furniture for homes, offices, and caravans, including cabinets, modules, fronts, and shelving, as well as decorative elements, wall panels, and lightweight panels.
