HIGHLY DURABLE DECORATIVE HARDWOOD PLYWOOD

Decorative plywood with high durability in indoor environments with high humidity.

Core modified by an innovative treatment, making it immune to attacks from fungi* and xylophages, even after sanding or machining.

Wide variety of faces in beautiful natural wood with great surface quality: maple, birch, walnut, cherry and white oak.

Duraply Deco panels are made of premium single-piece core veneers from European sustainable poplar farms that provide extraordinarily lightweight panels making them easy to machine, virtually void-free with no telegraphing, exceptional bond quality, flatness, stability and machining properties.

Applications:

Primarily intended for making furniture and decorative projects in demanding humidity environments.

Available in a UV finish on one or both faces, highlighting the beauty of the natural wood grain with a long-lasting finish, maintaining the sheen over time.

* In relation to fungi tolerant to copper, and xylophagous insects from tropical climates and severe climatic conditions, the effectiveness of the core treatment of these panels may be reduced or affected. Additional treatments are recommended.

The figures included in this technical data file are for information purposes only and have no contractual value. The formats, dimensions, thickness, plies and technical characteristics may vary with no prior notification based on new developments and technological advancements. The buyer is responsible for deciding whether the Garnica product is suitable for the desired application, and will be required to ensure that the location and way in which it is used are suitable according to the manufacturer's instructions and suggestions, as well as its compliance with current regulations.

Health and safety: The user/recipient of the product is obliged to carry out risk assessments of the people whom are going to process/transform it based on the local health and safety legal requirements, implementing the necessary controls in order to provide appropriate preventive measures: e.g. manual handling, dust extraction in case of cutting/sanding, use of personal protection equipment, etc. You can request more information at info@garnica.one.
