EUROPEAN POPLAR PLYWOOD WITH HDF OUTER LAYERS

Lightweight 100% European poplar panel, finished with thin, 2.0 mm HDF outer layers, with high surface quality achieve a uniform finish.

The exceptional surface quality of the HDF allows for consistent finishes with any type of paint and finish, such as laminates or decorative veneers with natural wood.

Efficiency HDF panels are made of premium single-piece core veneers from European sustainable poplar farms that provide extraordinarily lightweight panels making them easy to machine, virtually void-free with no telegraphing, exceptional bond quality, flatness, stability, and machining properties.

Applications:

Designed to manufacture furniture and interior decoration, such as kitchen cabinets, closets, restaurants, apartments, or any other decorative project or cabinet.
