Challenge the ordinary

efficiency
poplar

100% EUROPEAN POPLAR LIGHTWEIGHT PLYWOOD

An incredibly lightweight panel, entirely composed of European poplar from sustainable farms. Its light color and uniformity of the veneers make it ideal for painting or refinishing.

Efficiency Poplar panels are made of premium single-piece core veneers from European sustainable poplar farms that provide extraordinary lightweight panels making them easy to machine, virtually void-free with no telegraphing, with exceptional bond quality, flatness, stability, and machining properties.

Applications:

Tremendously versatile range that translates into infinite applications, such as interior construction, manufacturing furniture for RVs and vans, as well as public and private establishments.

RV furniture

Indoor construction
