Challenge the ordinary

PRIMED ULTRA-DURABLE PLYWOOD FOR OUTDOOR USE

100% durable plywood for outdoor use with exceptionally smooth primed surface, with great colour retention and scratch- and impact-resistance, in addition to anti-mould technology to ensure minimum swelling and prevent delamination.

Core modified by an innovative treatment that makes the entire panel extraordinarily durable and immune to fungal and xylophage insect attacks, even after sanding or machining, with a 15-year guarantee.

Its top-quality wood is sourced from fast-growing sustainable European tree farms, making the panel exceptionally stable, lightweight and easy to machine.

Applications:

Ideal for finishing with a final coat of paint in outdoor construction projects such as façades, roof supports, cornices or doors. Also in outdoor elements such as sheds, garden furniture, signposts, DIY projects and boat equipment.
